

ENVIRO-ALERT! Waterfowl

Dear Valued Client!

As part of our customer service responsibilities the Natural Resource Managers at Envirotech Environmental Consulting, Inc. (EECI), would like to report that many stormwater ponds and wetlands are holding crippled and/or injured waterfowl as a result of this year's hunting season. If community members are aware of any such situations, and if leadership/property management would like a removal plan, please contact us as soon as possible. This service is complementary to our clients that already have a Comprehensive Management Plan.

Regards

Todd A. Fritchman
Aquatic Biologist/President

If you have any questions or concerns which may pose potential emergencies, feel free to contact our Director of Operations, Wesley Allen at anytime 302.462.5615.
