Commercial Tools

Morton Electric Motors (MEM) has been a distributor of premium electric motors, serving the Delmarva Region for more than 50 years. Our services include, but are not limited to: sales, service and repair of major brand electric motors for pool, water, sewage, HVAC, commercial garbage disposals, appliances, construction tools, light industrial machines, and aeration/fountains. MEM also sells associated parts including: bearings, motor starters, capacitors, frequency drives, belts, fan blades, blower wheels, and more. We serve a variety of customers from large businesses to individual homeowners.

Electric Motor Service

We sell and service all brands of electric motors and pumps for all purposes:

- | | |
|-------------------|------------------------|
| AC Motors | Food Service Equipment |
| Brake Motors | Fountains |
| Brushless | HVAC |
| Commercial Motors | Pools and Spas |
| DC Motors | Power Tools |
| Farm Duty | Pumps |

Aeration/Fountains

For All Aquatic Management Needs:

Fountains and aerators do more than just make a spectacular splash. Proper circulation and aeration will increase the amount of oxygen in your pond or lake. This improves aerobic decomposition, while helping to inhibit mosquito breeding. We are authorized distributors of AquaMaster fountains and aerators, the industry leader in aquatic management systems. We are also a distributor of Otterbine Barebo, Inc. Take advantage of our sales and design specialization consultant support and installation services.
